

Heavy ripple currents
High dV/dt
Courant ripple important
dV/dt élevé

Self-healing
Dry type capacitor
Auto-cicatrisant
Condensateur sec

Dielectric - Diélectrique

Series construction with metallized polypropylene + aluminum foils

Housing - Boîtier

Non flammable plastic tube (UL 94 V0)

Tolerance - Tolérance

± 5

Operating temperature - Température d'utilisation

-25° to +85°C

Terminals - Sorties

M6 or M8 threaded copper inserts

Sealing - Obturation

Polyurethane resin

Loss factor at 1kHz

Max 5.10⁻⁴

Test voltage between terminals

Tension d'essai entre bornes

1.5 U_n (10 seconds)

Standard - Norme

IEC 61071
